

**eSYMO**  
STEP YOUNG MOBILITY

**HONDA**

## **The Honda eSYMO (e-Step Young Mobility)**

Offers best-in-class riding comfort ,a range of up to 25 kilometers and a top speed of up to 25km/h. Combining the front and rear suspension with big wheels provides the perfect driving feel even when street conditions are rough. Next to this the extra brake lever system assures maximum safety while driving.

When maneuvering in dark conditions the headlight and rear light make navigation easy and safe. The illuminated electronic display gives the rider an overview of the ambient temperature, the battery status and different driving modes.

Additional benefits of the eSYMO are that the driver is able to change the speed with only a few clicks to his personalized pace and that the Honda eSYMO is self-standing when halfway folded.

### **Features:**

- Big wheels combined with front and rear suspensions ensure a smooth ride and high comfort level
- Electronic display providing key information to the rider
- Additional brake lever system for optimal safety
- Easy to store in your car or at home thanks to the intuitive folding mechanism
- Adjustable handlebar height
- Easy to reach charging port
