## TEAMWEAR

---

Racing is at the heart of Honda. This year, Honda proudly embraces its racing heritage by putting the launch of the new Honda Racing Teamwear collection in the spotlight. The collection consists of seven unique Honda Racing garments, which are destined to become any racing fan's new favorite wardrobe essentials.

Our garments were developed in close cooperation with a renowned brand, who's expertise helped us to ensure the best quality, guaranteed to meet our customers' high expectations. **Careful:** if you want to enjoy your winter and lightweight jacket as long as possible, your jacket needs extra care whilst washing. Regular soap might damage the water-repellency and technical features of your garment. For optimum maintenance, please turn to specialized products, which protect the water-repellency and technical features of your jacket. Don't forget to renew the DWR layer after washing and drying with a specialized spray.
