

# 2016 | FLEET PREVIEW GUIDE

## Move Your Business Forward

**With more than 6 decades of presence in the region, Ford Fleet can help make it happen.** We partner with you to tailor solutions that support your strategic planning. And we maintain dialogue to ensure those solutions remain aligned with your goals. Our fully competitive and streamlined incentive pricing structure means the more vehicles you buy or lease, the more you save. When it's time for remarketing solutions, enlist our expertise to help maximize returns. *Trust us* – we know how important fleet operations are to the health and wealth of your organization. Experience the Ford Fleet Difference.

## A New Ford Explorer

**Be unstoppable.** Its sleeker shape incorporates a flush roof rack and strategic air curtains that reduce drag. The refined suspension makes for exhilarating performance, a quiet cabin, and a comfortable ride even when pavement turns to dirt. Interior design cues include freshened instrumentation and a restyled steering wheel. A front 180-degree camera, enhanced active park assist,<sup>1</sup> and a hands-free foot-activated liftgate are available. Technologically advanced. Beautifully refined. Capably outgoing. It's time to perfect adventures.

## A New Ford Police Interceptor® Utility

**Now it's even more arresting.** The refined exterior features new fascias, along with a bolder grille for improved engine cooling. It's flanked by new headlamps with LED low beams; halogen high beams have wig-wag capability.<sup>2,3</sup> In back, the taillamps are redesigned, the decklid lock cylinder is relocated, and there's a new downforce-inducing rear spoiler. Accommodations inside are fortified with a new steering wheel, instrumentation, and a center stack with larger controls for better ergonomics. The new liftgate release switch in the overhead console is handy. One-touch-up/-down power front windows and a rear view camera<sup>1</sup> with washer are now standard. And since interior dimensions are *unchanged*, current equipment can readily transfer.

## An Entirely New Lincoln MKX

**A liberating, personalized experience.** Elation begins before the driver enters the vehicle: A "welcome mat" illuminates outside, and then ambient lighting<sup>2</sup> activates inside. Interior design language incorporates an open, flowing environment that's beautifully composed, exceptionally hushed and luxuriously appointed. Amenities include active noise control, a push-button shift and the 360-degree camera,<sup>2</sup> plus 22-way-adjustable multicontour front seats with Active Motion<sup>®2</sup> massage. An advanced twin-turbocharged, direct-injected EcoBoost<sup>®</sup> V6,<sup>2</sup> along with the new integral-link rear suspension and Lincoln Drive Control, enhances the ride. For peak performance and handling, Intelligent AWD is an available element for this mix of sophistication.

<sup>1</sup>Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. <sup>2</sup>Available feature. <sup>3</sup>Does not include controller.

## Depend On Ford Vehicles

**A full line of high-quality, appealing products.** Ford cars offer the smart technology, performance and safety you need on the road, along with the efficiency and comfort to keep your fleet going. With adaptable space for hauling just about anything, and reconfigurable seating for passengers, Ford utility vehicles are both incredibly convenient and supremely versatile. Ford trucks, vans and wagons are Built Ford Tough<sup>®</sup>, supplying the unbeatable combination of rugged capability and steadfast reliability you need to get the job done right. No matter your choice, every Ford vehicle is a value added.

## Be compelling with Lincoln.

Lincoln prefers to make a singular statement that speaks to the few. Not to the masses.

Each engaging personal luxury vehicle is created with meticulous craft and backed by a profusion of sophisticated technology and efficient engineering. From the space-enhancing push-button shift\* and exclusive Revel® Audio System†, to adaptive steering‡ and the continuously controlled damping inherent to Lincoln Drive Control‡ that is selectable in Sport, Comfort or Normal mode.

Chiefs of corporations, world leaders, and celebrities have all made their mark in a Lincoln. Impress your clients, customers and constituents with the perfect expression of subtle elegance.
